

THE VENTURE BLUEPRINT METHOD

WE DON'T START WITH IDEAS. WE START WITH A BLUEPRINT.

How a farm labor crisis became a **200 billion** US dollar market size venture in **100 days** and what it means for the next builder.

[See How It Happened](#)

EVERYONE KNEW THERE WAS A LABOR PROBLEM. NOBODY KNEW WHAT IT ACTUALLY WAS

Understanding the Gap

"Farm labor shortage" is a phrase you hear everywhere in Indian agriculture. It's in government reports. It's in newspaper headlines. It's repeated at conferences. But what does it actually mean? Does it mean not enough workers exist? Or that workers won't come to farms? Or that wages are too high? Or too low? Or that hiring is chaotic? Or that retention is impossible?

The answer: all of the above. And none of the above.

The real problem wasn't labor shortage. It was invisibility.

Worker shortage?

Wage mismatch?

Hiring chaos?

Retention failure?

DIVERSE PEOPLE ONE ROOM NO PRESENTATION JUST TRUTH

In May 2025, DISQ convened what we call a Farm Truths Dialogue an unconference designed to uncover reality, not validate assumptions.

Who Was In The Room.

We bring together the most critical stakeholders in the agricultural ecosystem to validate problems before we write a single line of code.

What Labors Told Us

VOLATILITY

FRAGILITY

EXPOSURE

DISCONNECTION

INFORMALITY

The Insight.

THE ISSUE WASN'T LABOUR SCARCITY, BUT THE ABSENCE OF A RELIABLE SYSTEM CONNECTING WORKERS WITH FARMS.

The Venture Blueprint

PROBLEM TO PILOT

01

VISION

A labor intelligence platform that formalizes farm hiring

02

MARKET SIZING

Maharashtra grapes + bananas = substantial wage pool annually

03

UNIT ECONOMICS

Take-rate per worker day + tool rental + embedded finance

04

PILOT OPPORTUNITY

Nashik grape farms, 500 worker days in first month

05

RISK MAP

Seasonality, churn, regulatory constraints and mitigations

PILOT READY ACCESS

50K

Acre farm

Daily Labor Needs

Sahyadri ecosystem

The Insight.

SUPPLY EXISTED. DEMAND EXISTED. TRUST DIDN'T.

Thousands lost each season. Workers uncertain of tomorrow's work. An industry running on phone calls and handshakes.

In that accepted chaos sat a venture waiting to be built.

The blueprint was ready. Now we needed the

Visionary Builders

Azhaan Merchant

Resilient Founder

DISQ Cohort 2025

Azhaan is A Global Operator And Investor Who Managed A \$500M Venture Fund And Held Leadership Roles Across AI And Technology Companies Before Founding Bharat Intelligence. He Previously Served As SVP – Strategy & Business Development At Deep North And Founded The Networking App NamastHey At Emory University.

Sahyadri's domain depth and network gave us instant distribution, live POCs and unforgiving feedback, so we could validate in weeks instead of seasons.

Gaurav Sanghai

Tech Visionary

DISQ Cohort 2025

Gourav Built And Scaled AI-Led Products As Co-Founder Of Edtech Startup BodhiAI And Later Served As Technical Director At Urban-Tech VC Firm Utopia, Working With Founders Across Emerging Cities In Asia, Africa, And Latin America. His Work Focused On Applying AI And Machine Learning To Solve Real-World Problems.

Access to growers and partners exposed us to real farm workflows, not hypothetical user stories, so we could build for actual constraints and compress our 0-1 learning curve.

This is what happens when a **blueprint** meets the right founders

₹7 CRORE RAISED

Sahyadri Farms led. Ecosystem partners joined. Not because of a compelling pitch deck. Because the proof was undeniable.

TODAY, HUNDREDS OF JOBS. TOMORROW, THOUSANDS.

The Vision Ahead

- Scale across Maharashtra horticulture
- Expand to other crops and geographies
- Layer skilling, financial services, tool-as-a-service
- Build the labor intelligence layer for Indian agriculture
